

## Schneider Electric Solution Partner

The Solution Partner certified brings value to Oem System Integrators through increased business cooperation, more technical expertise and greater market competitiveness.

The best way to deliver improved productivity is to collaborate with a company that offers the best technology solutions and resources from qualified Partners to find even more efficiency in your plant process.

Electricidad Alsanbo , as a Schneider Electric Solution Partner, can offer extensive experience in design, implementation and project management of a wide range of technological solutions and services based around the more innovative Schneider Electric products.

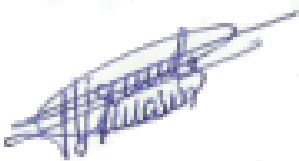

Electricidad Alsanbo have demonstrated their expertise and experience in Schneider Electric System technology and solution offers, enabling them to bring more value to their end users.

We would like to thank Electricidad Alsanbo for his loyalty and cooperation with our Solutions.

We are grateful for sharing with them the last business success in Automation Pumping Projects.

We look forward to working with Electricidad Alsanbo again in the future projects.

Sincerely,

Carles Higuero Demasón  
Sales Industry Manager – Industry Business
